

When Speed & Accuracy Count

DATA COUNT S 660

DATA's S 660 is a sophisticated device designed to quickly and accurately count seeds as small as 1 mm up to 25 mm. While it can count tens of thousands of seeds per minute, it is able to deliver extremely high accuracy, eliminating the imprecision of most current weighing solutions to save you money.

The S 660 is designed to count massive quantities of seeds and thus ideally suited to key players in the seed industry who need to pack hundreds of millions of seed packages every season.

Due to its unprecedented counting speed, the S 660 enables its users to pack seeds by pre-set numbers without losing valuable production time. The S 660 machine is based on proprietary, patented technology that delivers unprecedented counting speeds and phenomenal accuracy.

▶ PRODUCT

Average counting speed capabilities (Bags per minute)

Seed type \ Quantity	1000 seeds
Cherry	30
Tomato	30
Pepper	30
Melon/ Cucamber	16
Watermelon	10

FEATURES:

- Precisely counts seeds of all shapes, from 1 to 25 mm in size
- Counts a pre-set number of seeds
- Rapidly counts vast quantities of seeds. For example: 30 bags of 1,000 tomato seeds per minute.
- Operation by Touch panel PC
- No pre-calibration required
- Air system protection on each detection unit
- Includes rejection system
- Consists of two containers
- Infrastructure for dust vacuum system
- Fast emptying

BENEFITS:

- Delivers nearly 100% accuracy
- Controls stock through precise rather than estimated counts
- Saves time and money
- Simple to operate, with a user-friendly interface
- Significantly more profitable than scale-reliant packaging
- Low maintenance and easy to clean
